6 REASONS TO CHOOSE A NATURAL GAS FIREPLACE

1 CLEAN AND SOOT FREE

A chimney sweep is needed no more when it comes to the maintenance of your new natural gas fireplace. No more cleaning out the fireplace and no more trying to find the damper. Soot-covered hands begone!

2 EASY ON/OFF SWITCH OR THERMOSTAT CONTROL

Brilliant heat and a warm glow at the touch of a button. No more stoking the fire or fanning the flames - just simplicity. Yours might even come with a remote.

3 PRIMARY OR BACK-UP HEAT

These fireplaces run on, well, natural gas which means come power outage or snow storm, you can keep your family warm. Not to mention that with the built-in fan most models have, they can heat large spaces quickly.

4 MAY INCREASE HOME VALUE

Did we say stylish? Get rid of the old dirty fireplace and showcase your home with any number of natural gas fireplaces on the market today. Go modern or go rustic. Either way, chances are that your home value will increase with the improvement.

5 PSE REBATE

PSE residential natural gas customers can apply for a **\$200 rebate** on an energy-efficient natural gas fireplace. Visit **PSE.com/Rebates** for a complete list of qualifications and download a list of qualifying models.

6 ENERGY EFFICIENT

Depending on the brand, size and model features, your gas fireplace's efficiency can range from 70-80 percent. They also release 19,500 times less particulates than wood burning stoves or fireplaces.
