

Relax. It's a Beachcomber Hybrid.

Save on 12 industry leading energy efficiency options.

Beachcomber was asked by the hot tub industry association to provide models for energy testing to establish the new, highest energy consumption standards. 100% of the Beachcomber hot tubs tested by the independent technical institute laboratory passed to establish the new standards! Beachcomber is now offering for the first time, Hybrid Edition hot tubs which will include all of these features, and more.
